

Exterior Pressure Washing and Interior Disinfection

Service You Can Count On

Apex Pressure Washing LLC is a local pressure washing company in the LowCountry of Charleston, SC. Their specialties lie with restaurants, hotels, apartment complexes along with other commercial and residential properties. The goal is safety for customers and employees. With the Covid-19 virus, Apex is helping businesses open back up and stay

open responsibly. With 12 years of experience Apex Pressure Washing has the knowledge, labor and equipment to handle the job. Our rigs utilize 8gpm pumps along with diesel heated water. Basically what this means is they can handle commercial jobs effectively. And with the

newest in equipment and chemicals for interior disinfection, Covid-19 does not stand a chance of surviving.

Interior disinfection is a multi-step process of applying the Chemical HDQ Neutral from

Spartan Chemical company onto all surfaces that a person could touch. This chemical is used in hospitals around the world. EPA Reg. No. 10324-155-5741. The list of Germs (Bacteria, Fungicidal and Virus') is too long to list, but

Coronavirus is specified along with hundreds of others. For restaurants open to interior or exterior dining, the suggested application is every 4-5 days along with the routine in-house cleaning. MSDS Sheet available upon request. Keep reading to the end for a list of some of the restaurants we service in the LowCountry.

Exterior disinfection includes a multi-stage process including two chemicals (yes one being commercial bleach and a synthetic cleaner) applied via low pressure spray. After a dwell time of at least 15 minutes a high pressure, high heat spray washes and neutralizes the area leaving your exterior surfaces free of harmful pathogens. Ideal for outdoor common areas, outdoor dining, playgrounds and building entryways. A sign is provided after treatment stating the property has been disinfected for safety. This gives customers and employees the knowledge that everything is being done to keep everyone in the business as safe as possible.

In addition to interior and exterior disinfection, Apex has been pressure washing exterior buildings,

sidewalks, curbing and more for many years. From an entire hotel, office complex or restaurant, to your home, no job is too big nor small for them to handle. Apex operates with business licenses in all surrounding cities/towns and is insured with General Liability, Commercial Vehicle and Workers Comp insurance. Visit them on the web at www.ApexPressure.com, give them a call at 843-442-0300 or via email ApexPressureSC@gmail.com.
